

CHANGE TO NEW COMPUTER SYSTEM DIFFERENT ORDERING SCHEDULE

At Unidex we always put the customer first. That's why we are constantly improving our service, quality and business processes. In order to prepare us for the future we will be changing to a new computer system on Friday the 23rd of September.

Of course we try to do this without creating any changes in order and delivery schedules. To make the transition possible there will be a short time in which we can't ship any orders. That's why we want to advise you to place and confirm your order timely towards the 23rd so you will have your products in in time. Contact your sales representative or your back-office contact for the possibilities.

We would like to thank you in advance for your understanding and cooperation. If you have any further questions please do hesitate to contact us.

Best regards,

The Unidex Sales team,

Unidex Holland BV
